JAK

LUBRICANTS

- JAKSTROL
- JAKSTROL PLATINUM
- JAK SPEED

4T 20W40

- 4T 20W40 is a superior performance engine oil, It is recommended for 4 Stroke Scooters & Motorcycles. Speed give you smooth gear shifting. Increased life of transmission and clutch parts. Reduced oil consumption & maximum power output APL-SG JASO MA2

15W40

- Excellent Low and high temperature stability.
- Protection against Rust and corrosion.
- All weather performance.
- This is heavy duty engine oil having high viscosity Index high detergent Level and excellent oxidation stability.

4T 10W30

JAK LUBRICANT 4T is a premium quality 4-stroke engine oil specially formulated for high speed air-cooled engines of new generation motorcycle 4T 20W40 ensures maximum power, smooth drivability, Long drain interval Up to 2000 to 8000 Kms under normal operating conditions JAK LUBRICANT 4T exceeds the most stringent performance requirements of JASO MA2.

HYDRAULIC OIL 46

Jakstrol Hydraulic Oil is premium heavy oil for Hydraulic system requiring excellent performance & very long lubricants life.

Product Features & Benefits:

- Excellent Filter ability.
- Excellent tolerance to contamination.
- High Film Strength to minimise friction & Wear.
- Good anti-corrosion properties. Oxidation stability.
- Reduced tendency to foam. Good air release properties.
- Longer filter and lubricants life due to high thermal stability

HYDRAULIC OIL 68

JAK LUBRICANT Hydraulic Oil is premium heavy oil for Hydraulic system requiring excellent performance & very long lubricants life. Product Features & Benefits:

- Excellent Filter ability.
- Excellent tolerance to contamination.
- High Film Strength to minimise friction & Wear.
- Good anti-corrosion properties. Oxidation stability.
- Reduced tendency to foam. Good air release properties.
- Longer filter and lubricants life due to high thermal stability

TQ

- POWER STEERING FLUID
- Super Quality automatic transmission, manual transmission, power steering and synchromesh transmission which require Type A Suix A Fluid
- Benefits:
- Superior corrosion and rust protection
- Excellent for smooth gear stift

GEAR OIL EP-90/140

- Recommended for all automotive and Gear purposes Excellent protection of Gears Non-foaming characteristics. Protection against Rust and corrosion.
- Balanced additive Package for enhanced performance. An ecofriendly base oil for discouraging global warning.

PUMP SET OIL

- Excellent Low and high temperature stability protection against Rust and corrosion.
- All weather performance
- This is heavy duty engine oil having high viscosity
- Index high detergent Level and excellent oxidation stability
